Deb's Volcanic Adventure

Forty kms from Rotorua we bounced up a rugged 4WD track climbing through native bush to the upper slopes of the sacred Maori land of Mt Tarawera. Viewed from the edge, our walk into the vast volcanic crater looked daunting. Instead it was an exhilarating scree slide 900ft to the crater floor– great fun! We wandered along the depths of this sleeping volcano, catching our breath for the steep but short climb out of the crater. Our reward was magnificent views to the East Coast and White Island as we journeyed down the mountain for our return to Rotorua.
